40+ YEARS OF HOLISTIC+SUSTAINABLE DESIGN

“ I appreciate everything you and your team put into the design of such a magnificent building. Having been involved in every phase of this project, I witnessed first-hand how you took our ideas and quite literally turned them into reality. I’m in awe of how you envisioned such a wonderful future for our students and the community. ”

PETER BADALAMENT | FORMER PRINCIPAL  
Concord-Carlisle Regional High School | Concord, MA

“ We have just opened our beautiful and functional new Quinn Middle School, on time and within budget. Having been involved with four other building projects, this was, by far, the best process and product. OMR performed at an outstanding level throughout the process. They listened to what we wanted and used their talents to deliver it. OMR engaged our staff and community in the design process and was always flexible in dealing with new ideas as we went along in the process. ”

KEVIN LYONS | FORMER SUPERINTENDENT  
Quinn Middle School | Hudson, MA

“ Today, we held our Open House for students and families. The feedback from all was absolutely fabulous. I am not exaggerating when I say that they were ecstatic! Parents were very enthusiastic in their praise of the building, commenting on the design, the layout, the materials, and the overall attractiveness of the building. We are all thrilled with your brilliant design of Willard and with the OMR team’s excellent work on each and every detail! How wonderful for our community to enjoy a “model” school! ”

PAT FERNANDES | FORMER PRINCIPAL  
Willard Elementary School | Concord, MA

## PHILOSOPHY

For more than 40 years, our practice has been based on an understanding that everything — all parts of a building, all aspects of a project, all aspects of a community and environment — are connected. In our architectural work, we strive to reinforce this sense of connection at every level: by integrating every detail into the whole of the building, every building into its surroundings, and every project into its community. This philosophy infuses not only the architecture but also our design process, our interactions with people, and the way our firm is run.

## DESIGN

OMR's buildings celebrate daylight: filtering in from windows and light monitors; reflecting upward to illuminate ceilings; and penetrating the center of buildings through skylights, atriums or glass floors. Careful planning creates a sense of order and clarity which orients a person in their surroundings. Transparency and layering provide glimpses into other areas of the building and out to the landscape beyond. Meticulous detailing and use of materials articulates the relationship of each element to the whole.

## COLLABORATION

Collaboration is a fundamental value of our firm. By working together with owners, clients and OPM's as a team, we can accomplish more than we could as separate individuals. Every building study, campus plan, and design is a unique response to our clients' particular project requirements and evaluation criteria as well as the special constraints of their capital and operational budgets, and existing facilities and sites.

## PARTIAL PUBLIC SCHOOL CLIENT LIST

### **Bridge Street School**

*Northampton, MA*
